PROJECTS SHOWCASING WOMEN’S CENTRAL ROLE IN AFRICA

How do African women perceive the great challenges of the 21st century? What are the views and the initiatives supported by more than half of the population of the African continent? From the dissemination of knowledge to systems of disobedience, from history, memory, and archives, to economic issues, territory and citizenship, the Africa2020 Season will showcase the role of women in African societies.

A large number of French institutions answered the General Commissioner’s call and mobilised by codesigning, together with African women professionals, a specific project that gives a voice to women from the African continent and its recent diaspora. This spontaneous show of solidarity gave rise to a series of “Women Focus” in the arts, sciences and entrepreneurship.
